Dear Dr. Armarego-Marriott:

Please consider our revised manuscript, “Why longer seasons with climate change may always not increase tree growth,” (NCLIM-24061674B) for consideration as a Progress Article in *Nature Climate Change*.

The current manuscript is 3870 words long with 119 word abstract, a box of 400 words, 4 figures (plus one included in the box) and 106 references. We also include four Extended Data Figures and one Supplementary Information file (see Inventory) This manuscript is not under consideration elsewhere, and all authors approved of this version for submission.

Sincerely,

A handwritten signature in black ink, appearing to read 'Elizabeth M Wolkovich'.

Elizabeth M Wolkovich
Associate Professor of Forest & Conservation Sciences
